Amendment "A"

Amendments To The Claims

AI
Claim 1 (currently amended): A method for selectively storing a show data associated with a broadcast channel capable of being received and displayed by an entertainment system, the method comprising:

receiving programming data associated with the channel;
displaying a show associated with the channel;
displaying a menu associated with storing of the channel in memory;
selecting to load the programming data of the channel associated with the show currently being displayed into memory of the entertainment system; and
loading the programming data associated with the channel currently being displayed into the memory.

Claim 2 (Original): The method of claim 1, wherein the selecting to load includes specifying that the channel is to be added to a list of stored channels.

Claim 3 (Original): The method of claim 2, further comprising removing a current channel from the list of stored channels.

Claim 4 (Original): The method of claim 1, further comprising selecting for display, a list of stored channels and displaying the list of stored channels.

Claim 5 (Original): The method of claim 4, further comprising navigating through the list of stored channels.

Claim 6 (Original): The method of claim 1, wherein receiving programming data comprises receiving a digital bit stream including the programming data and sensory data corresponding to the programming data.

Amendment "A"

Claim 7 (Original): The method of claim 1, wherein selecting to load the programming data comprises:

executing software by a central processing unit, implemented within the entertainment system, to produce a screen menu; and
selecting an option icon of the screen menu to prompt selection of the channel for storage in memory.

Claim 8 (Original): The method of claim 7, wherein loading the programming data into memory includes loading the channel number information and source of the channel into memory.

Claim 9 (Original): The method of claim 7, further comprising:
selecting for display, a list of the stored channels;
selecting an option to cause a broadcast receiver to tune to a channel in the list of the stored channels to broadcast a show corresponding to the channel.

Claim 10 (Original): The method of claim 7, further comprising:
selecting an option to exit the screen menu.

Claim 11 (currently amended): An entertainment system comprising:
a display monitor; and
a broadcast receiver coupled to the display monitor, the broadcast receiver including a front-end unit capable of receiving programming data associated with a show broadcast for viewing on the display monitor, a memory, and a central processing unit coupled to the memory, the central processing unit coupled to receive programming data associated with a broadcast channel, the central processing unit to execute software to load programming data associated with the channel currently being displayed into the memory.

Amendment "A"

Claim 12 (Original): The entertainment system of claim 11, wherein the central processing unit executes software to display a screen menu on said display monitor, the screen menu including an icon selectable to add a current channel to a list of channels stored in said memory.

Claim 13 (Original): The entertainment system of claim 11, wherein the central processing unit executes software to display a screen menu on said display monitor, the screen menu including an icon selectable to remove a current channel from a list of channels stored in said memory.

Claim 14 (Original): The entertainment system of claim 11, wherein the display monitor includes a television receiver.

Claim 15 (Original): The entertainment system of claim 11, wherein the broadcast receiver includes an integrated receiver decoder.

Claim 16 (Original): The entertainment system of claim 11, wherein the central processing unit of the broadcast receiver executes software to provide a screen menu, and wherein selection of an icon of the screen menu signals the central processing unit to execute software to add a currently displayed channel to a list of channels stored in said memory.

Claim 17 (Original): The entertainment system of claim 16, wherein the screen menu further comprises a second icon selectable to display a second screen menu that displays the list of channels stored in said memory.

Claim 18 (Original): The entertainment system of claim 17, wherein the second screen menu further comprises a graphical portion, said list of channels being scrollable, said graphical portion displaying a show corresponding to a channel in said list during scrolling.
